

HB1397 is a **DANGEROUS** slippery downward slope, why should a selective class/group of people have more or privileged rights than any other group of people? Answer: **they should NOT**. All people shall and should be treated equally, otherwise you become a sexist, bigoted, racist, ageist, classist and so on...creating a truly miserable hypocritical society. This is exactly what this bad bill is supporting, a new nonsensical class-system. This is George Orwell's 1984, don't you see it?

Please say NO to this bad and detrimental bill. Suzanne Price, AACo, MD

BTW, our founders already have this covered in the **Preamble** to Declaration of Independence:

“We hold these truths to be self-evident, that **all men are created equal**, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.”
