

Support SB862 women coerced to have abortion 2024

In according to a new Lozier Institute peer-reviewed study published in February 2023  
nearly 70% of IAbortions Are Coerced or Unwanted

In the Cureus Medical Journal in January 2023 they found that Pressure to Abort was  
Linked to Worsening of Subsequent Mental Health. 60 percent of women who had  
abortions reported high levels of pressure to abort from one or more sources, and those  
same women report higher levels of subsequent mental health and quality of life issues,
