## **Testimony in Support of House Bill 723 - Office of the Attorney General – Rights of Residents of Health Care Facilities – Injunctive Relief and Penalties**

### **Health and Government Operations Committee**

**February 21, 2024**

The Maryland Senior Citizens Action Network (MSCAN) is a statewide coalition of advocacy groups, service providers, faith-based and mission-driven organizations that supports policies that meet the housing, health and quality of care needs of Maryland's low and moderate-income seniors.

MSCAN supports House Bill 723 which would give the Attorney General the authority to seek injunctive relief against certain health care facilities when there is an imminent or ongoing violation of the listed bill of rights of the residents. It also requires the Department of Health to create a resident bill of rights for those in assisted living facilities.

According to the National Council on Aging, 1 in 10 adults aged 60 and older are being abused, and this number is likely under reported. Right now, many of those violations in residential facilities are punishable by a simple fine and not a change in actions. HB723 would be able to enforce change with an injunction for bad acting facilities.

Another necessary reason for HB723 is that it creates a codified resident bill of rights for assisted living residents, which must include several rights, including the right to notice of transfer or discharge or the right to participate in that decision making. HB723 codification of resident rights will make assisted living facilities more accountable and ultimately safer for their residents.

For the reasons stated above, MSCAN urges a favorable report on HB 723.

Thank you for your consideration.
