

Hello, I will make this quick.

I am begging this bill to be passed. I can tell you first hand, that when the non experienced attorney handles representing children, it can have a very detrimental negative long term effect on children.

As adults we see specialists as needed from orthodontists, car mechanics, doctors, etc. So we MUST protect children (our future) and be sure the right person (similar to a specialist) handles cases involving innocent children.

They need this from us and they deserve it.

Sincerely yours, Mrs Barker
