

SB 65: Criminal Law - Child Pornography - Prohibitions and Penalties

Dear Judiciary Committee Chair Clippinger, Vice Chair Bartlett, and all other esteemed Committee Members:

Please vote NO on this bill, as it is currently written, or change the wording of this bill.

I am very in favor of the intent of this bill. However, I do not like the part where the age of the child in this bill is 13 years old. Why can't we make it a minor, anyone under the age of 18 years old? Also, I do not like the part where someone can have 99 separate images of the minor, but 100 is too many. I do not think anyone should have any images whatsoever!! Not ONE single image!!

Please change those two things about this bill before passing it into law!!

Thank you.
