

Greetings,

After educating myself on this Bill “ Freedom to read ACT “ I believe the intention of this bill is an attempt to limit parents’ rights and it is a bill in poor taste and misleading. I believe this bill is an attempt to allow our children to have access to more and more pornographic books (which they already to in some schools in MD) without having the hassle of being challenged by parents and or others that just do not want these types of books in the hands of our youth.

I ask you to vote unfavorably for SB0738.

Thanks,

Melissa Idleman
