

HB0641 This is just flat out stupidity. Of all the good ways you could help make elections safe and secure, this is NOT one of them, nor is most of what is being proposed today. Since when do Democrats care about Election Integrity? All of a sudden now, no way, these are all bad manipulative bills being proposed on the docket today. 75% of the population don't trust our elections, so let's give them another 50 reasons why to question further if our vote even counts. Say NO to this incredibly dumb bill, thank you,
