

SB0738 Oppose

Dear Committee Members:

I strongly oppose this bill. Frankly, I am also disgusted and tired of the lie being propagated among some who claim that conservatives are trying to “ban books.” Anyone who can still think critically understands that any book can still be purchased or checked out at any library.

You know how Penthouse and Playboy magazines have opaque covers at your local drug store magazine shelf? Passage of this bill would be the equivalent of taking those covers off so that little kids can see the adult material. So the bill should really be called “Freedom to Read Porn Act.” It’s pretty obvious why most parents oppose this bill. Please oppose SB0738.
